Percent over/(under) Effective Housing Capacity	7%	-12%	-9%	-7.9%		-2.2%	

<sup>1</sup> IPC Includes those in intake and receiving.

<sup>2</sup> Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility.

<sup>3</sup> As of November 6, 2014 the number of approved variance beds was reduced from 680 to 580 beds.

## Total Inmates Housed

## Harris County - Jail Population March 2016 Report

---

### Observations

In March 2016 the average daily jail population housed stood at 8,579 reflecting a net increase of 89 persons from last month, with increases in each major category of inmates.

The average daily jail population housed is down 22% from the first meeting of the Council in September 2009 when the population totaled 10,941 inmates, which was 16% over design capacity and 7% over TCJS approved capacity. Including approved variance beds, the average daily jail population housed for March was 7.9% below the effective housing capacity. Without the use of variance beds, average daily jail population housed was 2.2% below effective housing capacity.

**Pretrial detainees** represent 77% (6,841 persons) of the total jail population, up slightly from the previous month and 8% higher (499 persons) than one year ago. The pretrial state jail felony detainee population declined slightly to 1,134 persons, 12% fewer (152 persons) than one year ago. The number of pretrial felony detainees (excluding state jail felonies) remains essentially the same as last month, up 11% from one year ago. The misdemeanor pretrial detainee population increased by 32 persons from last month and is 29% higher (123 persons) than one year ago.

The number of **probationers** with no pending charges increased by 76 persons from last month to 416, and is 25% higher than one year ago.

**Post-adjudicated County prisoners** represent 8% of the total jail population, up 10% from last month to 739 persons. This category is down 5% (43 persons) from one year ago due to fewer 12.44a state jail felons serving time locally. 586 persons or 7% of the total population are **post-adjudicated prisoners sentenced to TDC or state jail**, down 18% (125 persons) from one year ago.

The number of parole violators and non-Harris County prisoners declined by 18 persons from last month to 340, and is down 7% (9 persons) from one year ago.

The number of inmates awaiting transfer to TDCJ-ID (i.e. Paper Ready) averaged 362, down 31% from one year ago.

In March 2016, 26% (2,289 persons) of the average daily jail population housed had a mental health history (previously diagnosed or prescribed psychotropic medication). 775 of these 2,289 had either self-identified as being homeless or had received homeless services in the community prior to incarceration. An additional 12% (1,044 persons) of the average daily jail population housed met the same homeless criteria.

*Note: Fluctuation in the jail population as reported here is influenced by a variety of factors such as the number of cases filed, the number of people who are released on bond, the length of time to complete a case, holds placed on Harris County inmates by other jurisdictions, length of sentences handed down, the effect of early release programs, parole board processing of cases, and the list goes on. The changes observed in the jail population categories from month to month are impacted by any number of these factors and cannot be attributed to a single cause and effect.*

*Note: Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, approximately seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility. The Texas Commission on Jail Standards (TCJS) has approved the use of 580 variance beds in the Harris County Jail. When this additional capacity is added to the design capacity, the total number of beds rises to 10,014, but 7% (701 beds) must be subtracted from this number to determine the effective housing capacity which is 9,313. (The number of variance beds is subject to periodic review by TCJS.)*

## Total Inmates Housed

## Harris County - Jail Population June 2016 Report

---

### Observations

In June 2016 the average daily jail population housed stood at 9,109, a net increase of 104 persons from the previous month. Increases were observed in those sentenced to TDC/State Jail and parole violators.

The average daily jail population housed is down 18% from the first meeting of the Council in September 2009 when the population totaled 10,941 inmates, which was 16% over design capacity and 7% over TCJS approved capacity. Including approved variance beds, the average daily jail population housed for June was 2% below the effective housing capacity. An average of 232 inmates were housed in other Texas counties.

**Pretrial detainees** represent 75% (7,163 persons) of the total jail population, essentially the same as the previous month and 4% higher (280 persons) than one year ago. The pretrial felony population (excluding state jail felonies) increased by 47 persons to 5,213, 7% higher than one year ago. The number of pretrial state jail felony detainees declined by 30 persons from last month, 6% less than one year ago. The misdemeanor pretrial detainee population declined by 19 persons from last month and is 10% higher (47 persons) than one year ago.

The number of **probationers** with no pending charges declined 3% from last month to 351, essentially the same as one year ago.

**Post-adjudicated County prisoners** represent 8% of the total jail population, unchanged from last month, and 2% (14 persons) less than one year ago. 757 persons or 8% of the total population are **post-adjudicated prisoners sentenced to TDC or state jail**, up 5% from one year ago.

The number of **parole violators** increased 4% (13 persons) from last month to 340, 36% higher than one year ago.

The number of inmates awaiting transfer to TDCJ-ID (i.e. Paper Ready) averaged 499, up 7% from one year ago.

In June 2016, 27% (2,453 persons) of the average daily jail population housed had a mental health history (previously diagnosed or prescribed psychotropic medication). 825 of these 2,453 had either self-identified as being homeless or had received homeless services in the community prior to incarceration. An additional 11% (1,004 persons) of the average daily jail population housed met the same homeless criteria.

*Note: Fluctuation in the jail population as reported here is influenced by a variety of factors such as the number of cases filed, the number of people who are released on bond, the length of time to complete a case, holds placed on Harris County inmates by other jurisdictions, length of sentences handed down, the effect of early release programs, parole board processing of cases, and the list goes on. The changes observed in the jail population categories from month to month are impacted by any number of these factors and cannot be attributed to a single cause and effect.*

*Note: Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, approximately seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility. The Texas Commission on Jail Standards (TCJS) has approved the use of 580 variance beds in the Harris County Jail. When this additional capacity is added to the design capacity, the total number of beds rises to 10,014, but 7% (701 beds) must be subtracted from this number to determine the effective housing capacity which is 9,313. (The number of variance beds is subject to periodic review by TCJS.)*

Percent over/(under) Effective Housing Capacity	-3.6%	-4.8%	-4.7%	-5.2%		0.6%	

<sup>1</sup> IPC Includes those in intake and receiving.

<sup>2</sup> As of November 6, 2014 the number of approved variance beds was reduced from 680 to 580 beds.

<sup>3</sup> Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility.

**Total Inmates Housed**

---

## Observations

In July 2016 the average daily jail population housed stood at 9,059, down 50 persons from the previous month. There were fewer post adjudicated county prisoners, TDC/state jail prisoners, and parole violators.

The average daily jail population housed is down 17% from the first meeting of the Council in September 2009 when the population totaled 10,941 inmates. During the month of July an average of 230 inmates were housed in other Texas counties. Including approved variance beds, the average daily jail population housed in Harris County jail facilities was 8829, 5.2% below the effective housing capacity.

**Pretrial detainees** represent 76% (7,145 persons) of the total jail population, essentially the same as the previous month and 4% higher (280 persons) than one year ago. The pretrial felony population (excluding state jail felonies) increased by 47 persons to 5,213, 7% higher than one year ago. The number of pretrial state jail felony detainees declined by 30 persons from last month, 6% less than one year ago. The misdemeanor pretrial detainee population declined by 19 persons from last month and is 10% higher (47 persons) than one year ago.

The number of **probationers** with no pending charges increased 15% from last month to 403, up 21% from one year ago.

**Post-adjudicated County prisoners** represent 7.5% of the total jail population, down 57 persons from last month, and 8% (64 persons) less than one year ago. 684 persons or 7.3% of the total population are **post-adjudicated prisoners sentenced to TDC or state jail**, down 11% from one year ago.

The number of **parole violators** is down 9% (29 persons) from last month to 311, 15% higher than one year ago.

The number of inmates awaiting transfer to TDCJ-ID (i.e. Paper Ready) averaged 499, up 7% from one year ago.

In July 2016, 27% (2,470 persons) of the average daily jail population housed had a mental health history (previously diagnosed or prescribed psychotropic medication). 795 of these 2,470 had either self-identified as being homeless or had received homeless services in the community prior to incarceration. An additional 11% (959 persons) of the average daily jail population housed met the same homeless criteria.

*Note: Fluctuation in the jail population as reported here is influenced by a variety of factors such as the number of cases filed, the number of people who are released on bond, the length of time to complete a case, holds placed on Harris County inmates by other jurisdictions, length of sentences handed down, the effect of early release programs, parole board processing of cases, and the list goes on. The changes observed in the jail population categories from month to month are impacted by any number of these factors and cannot be attributed to a single cause and effect.*

*Note: Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, approximately seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility. The Texas Commission on Jail Standards (TCJS) has approved the use of 580 variance beds in the Harris County Jail. When this additional capacity is added to the design capacity, the total number of beds rises to 10,014, but 7% (701 beds) must be subtracted from this number to determine the effective housing capacity which is 9,313. (The number of variance beds is subject to periodic review by TCJS.)*

<sup>1</sup> IPC Includes those in intake and receiving.

<sup>2</sup> As of November 6, 2014 the number of approved variance beds was reduced from 680 to 580 beds.

<sup>3</sup> Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility.

## Total Inmates Housed

## Harris County - Jail Population August 2016 Report

---

### Observations

In August 2016 the average daily jail population housed stood at 9,046, down slightly from the previous month. There were fewer post adjudicated county prisoners, TDC/state jail prisoners, and pretrial detainees.

The average daily jail population housed is down 17% from the first meeting of the Council in September 2009 when the population totaled 10,941 inmates. During the month of August an average of 314 inmates were housed in other Texas counties. Including approved variance beds, the average daily jail population housed in Harris County jail facilities was 8,732, 6.2% below the effective housing capacity.

**Pretrial detainees** represent 76% (7,109 persons) of the total jail population, down 36 persons from the previous month and 3% higher (206 persons) than one year ago. The pretrial felony population (excluding state jail felonies) declined by 36 persons to 5,221, 6% higher than one year ago. The number of pretrial state jail felony detainees increased by 32 persons from last month, 2% higher than one year ago. The misdemeanor pretrial detainee population declined by 37 persons from last month, 10% fewer) than one year ago.

The number of **probationers** with no pending charges increased 13% (55 persons) from last month to 482, up 39% from one year ago.

**Post-adjudicated County prisoners** represent 7.2% of the total jail population, down 27 persons from last month, and 6% (64 persons) less than one year ago. 677 persons or 7.2% of the total population are **post-adjudicated prisoners awaiting transfer to TDC or state jail**, down 4% from one year ago.

The number of **parole violators** with no pending Harris County charges totaled 308, 16% higher than one year ago.

The number of inmates awaiting transfer to TDCJ-ID (i.e. **Paper Ready**) averaged 411, down 12% from one year ago.

In August 2016, 27% (2,451 persons) of the average daily jail population housed had a mental health history (previously diagnosed or prescribed psychotropic medication). 791 of these 2,451 had either self-identified as being homeless or had received homeless services in the community prior to incarceration. An additional 10% (931 persons) met the same homeless criteria but had not been identified as having a mental health issue.

<sup>1</sup> IPC Includes those in intake and receiving.

<sup>2</sup> As of November 6, 2014 the number of approved variance beds was reduced from 680 to 580 beds.

<sup>3</sup> Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility.

## Total Inmates Housed

## Harris County - Jail Population December 2016 Report

---

### Observations

In November 2016 the average daily jail population housed stood at 8,928, down 174 persons from October with fewer probationers and post-adjudicated TDC/State jail prisoners.

The average daily jail population housed is down 18% from the first meeting of the Council in September 2009 when the population totaled 10,941 inmates. During the month of November, on average 363 inmates were housed in other Texas counties. Including approved variance beds, the average daily jail population housed in Harris County jail facilities was 8,565, 8% (748 beds) below the effective housing capacity of 9,313.

**Pretrial detainees** represent 76% (6,977 persons) of the total jail population, up 40 persons from the previous month and 6% higher (374 persons) than one year ago. The pretrial felony population (excluding state jail felonies) declined slightly to 5,095, 4% higher than one year ago. The number of pretrial state jail felony detainees increased by 29 persons from last month to 1,337. The misdemeanor pretrial detainee population increased by 32 persons from last month to 491, 2% higher than one year ago.

The number of **probationers** with no pending charges stood at 630, up 35% from one year ago.

**Post-adjudicated County prisoners** represent 7% of the total jail population, up slightly from last month, to 629 persons, 9% (64 persons) less than one year ago. 571 persons or 6.2% of the total population are **post-adjudicated prisoners awaiting transfer to TDC or state jail**, down 5% from one year ago.

The number of **parole violators** with no pending Harris County charges increased to 303, 16% higher than one year ago.

The number of inmates awaiting transfer to TDCJ-ID (i.e. **Paper Ready**) averaged 386, down 9% from one year ago.

In November 2016, 27% (2,522 persons) of the average daily jail population housed had a mental health history (previously diagnosed or prescribed psychotropic medication). 791 of these 2,522 had either self-identified as being homeless or had received homeless services in the community prior to incarceration. An additional 10% (895 persons) met the same homeless criteria but had not been identified as having a mental health issue.

*Note: Fluctuation in the jail population as reported here is influenced by a variety of factors such as the number of cases filed, the number of people who are released on bond, the length of time to complete a case, holds placed on Harris County inmates by other jurisdictions, length of sentences handed down, the effect of early release programs, parole board processing of cases, and the list goes on. The changes observed in the jail population categories from month to month are impacted by any number of these factors and cannot be attributed to a single cause and effect.*

*Note: Effective Housing Capacity is equivalent to 93% of the total number of beds available. At any given time, approximately seven percent of beds are unavailable due to classification issues, repairs, construction, etc. thus preventing 100% utilization of all beds in the facility. The Texas Commission on Jail Standards (TCJS) has approved the use of 580 variance beds in the Harris County Jail. When this additional capacity is added to the design capacity, the total number of beds rises to 10,014, but 7% (701 beds) must be subtracted from this number to determine the effective housing capacity which is 9,313. (The number of variance beds is subject to periodic review by TCJS.)*
